Respite Care: Do YOU need a break?

We will cover your caregiver work for a short time while you emotionally and physically recharge. Whether it is a few hours or days, we can give you the time needed to rest, recover a loving perspective and take care of your own well being.

Our Caregivers at Polish Non-Medical Homecare Service can help with:

Companionship

Our caregivers are friendly, engaging and nurturing people who are in this field because they love giving comfort to others in need.

Bathing, Dressing & Grooming

Our caregivers are respectful, always working to preserve dignity and modesty.

Transportation

Our caregivers will escort clients to doctor appointments, shopping or to recreational activities.

Housekeeping

Choose whole house cleaning or light housekeeping services. For a complete list of our services see our website: cleanandgreenct.com

Meal Preparation

There's much more to home-cooked meals than "warming up food." We will listen to a patient's dietary needs and preferences, shop for the necessary groceries, put the groceries away, and prepare a nutritious meal to your specifications.

Phone Assistance

Communication and support are essential in homecare. We will be a part of your family's care team. Our caregivers will stay in contact with your loved one and provide a full report on any issues when needed.
